

Are you ready to give a **greener** you a go?

Scientists give us a decade to stop the worst of climate change, school children are on strike and the government has declared climate emergency.

What does it all mean for us here in Tayport?

Join a small & friendly group of concerned locals to discuss the climate crisis: what it means to you and what practical actions we can all take to tackle it here in Tayport. Each 1.5 hour session is supported by a trained facilitator and hosted by a volunteer. No prior knowledge required.
